Potassium Phosphates Injection, USP Product Code and Label Change

Dear Valued Customer,

Fresenius Kabi Canada would like to advise that the following changes will be made to our **Potassium Phosphates Injection, USP 3 mmol / mL 15 mL** and **3 mmol / mL 50 mL vials**:

- **Product code:** The new product code is outlined in the table below.
- **Latex content:** The new product now contains a **latex-free stopper**.
- **Labelling:** The tray and vial labels have been updated to include the new Fresenius Kabi Canada brand design and Plain Language Labelling (PLL) requirements. A more detailed look at the current versus “new” labelling can be found on the following page.

There has been no change to the formulation and the product is **free from preservatives**.

DIN	Product Description	Current Product Code	NEW Product Code	Current UPC Codes	NEW UPC Codes	NEW MDP Codes	Availability Date
02139545	Potassium Phosphates Injection, USP SD Vial 3 mmol / mL 15 mL	C8615P	C860539	Vial: 629336086153 Tray: 629336000524	Vial: 629336004614 Tray: 629336004621	976416	Mar 31, 2022
02139545	Potassium Phosphates Injection, USP PBP Vial 3 mmol / mL 50 mL	C8650	C860569	Vial: 629336086504 Tray: 629336000531	Vial: 629336004638 Tray: 629336004645	976441	Oct 12, 2021

Please be advise that there will be a short supply gap starting October 1, 2021 as we transition from the old code to the new code for Potassium Phosphates Injection, USP 3 mmol / mL 50mL vial. The 15mL is available for substitution.

Labelling changes:
